

**waciao**  
Home Eco

**Security  
IPCam**

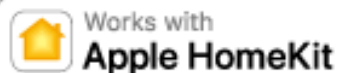

Works with  
**Apple HomeKit**

# waciao

## Home Eco

### Function

- Comply with Apple HomeKit HAP Protocol(update to R10)
- Support motion detect trigger to enable local TF card recording ( MP4 format ), Max storage capacity is 128GB
- SD card recording supports recycling & playback with file size/time slot information
- Support Cloud recording/playback ( optional )
- Support OTA ( Over The Air ) for camera firmware upgrade
- Support IrDa for night vision function
- Support simultaneous dual camera views for both iPad/iPhone
- Support simultaneous dual two-way audios ( Mic./Speaker )

120 Degree Field of View

Dynamic Video Streaming

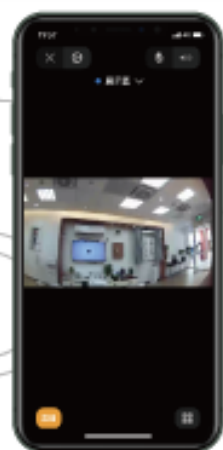

Two-Way Audio

Full HD 1080P Video

Night Vision

### Live View

you can view all your HomeKit cameras live on one screen, not snapshots that lag behind the reality of what your cameras are seeing.

### Motion Detection

Triggers alerts and automatic video clip recording.
